<u>FAQs</u>

- Where do I find my registration reference number? Your school will provide you the
 reference number which looks like A2BD-G000000000XXXXXXXX. Instead of XXXXXXXX there will
 be seven digits.
- Why does my friend use a different account number? The account number is unique for each student. Only the first nine digits (772220084) are same for all the students of your school and the last seven digits come from your registration reference number that are unique for you.
- 3. What should I ask the bank to make the payment? If you choose to physically visit a bank instead of paying through your bank's mobile app, please inform the bank that you want to make a BEFTN or NPSB payment and provide the details given in the table above.
